October/November/December 2014

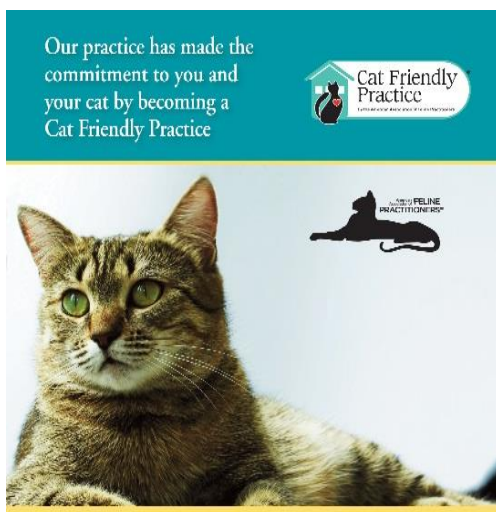

October Facebook Contest

Would you like to win a \$50 RAH gift certificate? During the month of October we invite you to post a picture of your pet in costume on our Facebook page. We'll put it in an album and the picture with the most likes at the end of the month will win a \$50 RAH gift certificate!

Cat Friendly Day

We are committed to your cat's health and want to ensure a positive experience at the vet's office. Stress is one of the top reasons why owners don't bring their cat to the veterinarian for routine visits. Cats are very good at hiding illnesses and diseases. In order to catch any illnesses early it is important to screen for them with a comprehensive physical exam and bloodwork. That's why we are hosting a cat friendly day. While we are already recognized as a cat friendly practice, we want to show you our commitment to your cat's health by taking it one step further.

On Thursday November 13, 2014 we will only be seeing cats in the morning. There will be no dogs in the lobby to stress your cat. We will also be giving a free FVRCP or Rabies vaccine and heart screening bloodwork to your cat with the purchase of comprehensive chemistry/CBC/T4 bloodwork panel. Space is limited so make sure to call to schedule your appointment soon!

February is Dental month

Mark your calendars as February is national Pet Dental month. If you call in February to schedule your pet's dental for anytime throughout the year, you'll get 15% off your entire invoice! Healthy mouths mean healthy pets!

Riverview Rendezvous

Thanks to all of our current clients and visitors that attended our open house. Together with everyone's help we were able to donate to the Stray Animal Adoption Program over \$320, around 100 pounds of pet food, and there were 4 pet adoptions.

There were free goodie bags for all and some really neat raffle prizes. (Thanks to all of our sponsors that donated raffle items!) We hope that everyone enjoyed the activities and being able to check out a "behind the scene" tour of the hospital.
