

Riverview Animal Hospital

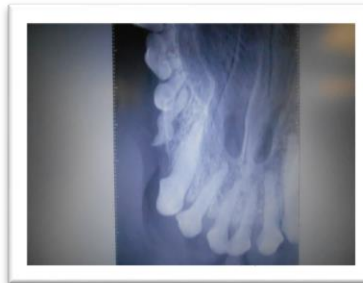

WINTER 2015

Riverview Animal Hospital wants to thank everyone that came out for our annual open house. Riverview Rendezvous was our way of giving back to our wonderful clients and helping out the stray animal adoption program (SAAP). With your help we were able to donate \$310 to them in addition to food items.

Food Donation for SAAP from the Open House

Facts about dental radiographs

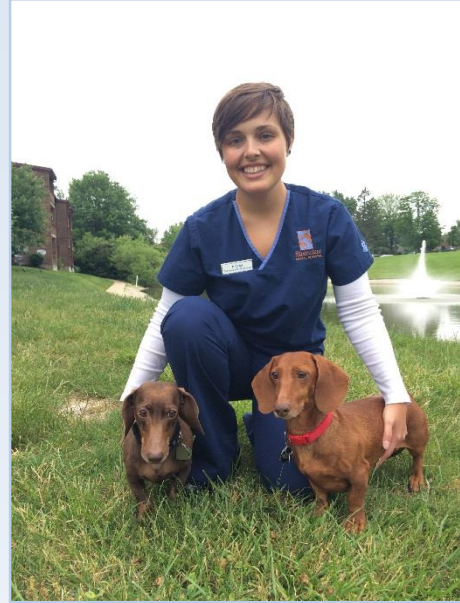

- They allow us to see *what's below the gumline*, two thirds of animals have significant disease that is not visible by just looking at the teeth.
- In young animals, we *may find retained teeth*, abnormal roots or fractured teeth.
- Unerupted teeth can cause cysts in the boney area which can be painful causing swelling or even a broken jaw.
- After extraction, dental x-rays ensure that we removed the root completely.

Meet Aubrey

Page 2

Aubrey was born and raised in Northern Kentucky. She attended Conner High School and is currently studying Biological Sciences at Northern Kentucky University. Aubrey has a passion for working with animals and has been doing so for the past six years. She has two dachshunds named Oscar Mayer and Snoop Dogg. In her spare time, Aubrey enjoys swimming, hiking, and reading and is a movie enthusiast.

Dental December

Receive 10% off your pet's dental procedure when scheduled for the month of December

Scaling with an ultrasonic scaler, removal of tartar below and above the gumline, polishing, fluoride treatment (10% off includes pre-anesthetic bloodwork, dental radiographs, extractions if necessary and medications.)
