

Seeking a bright & dynamic RVT to join our skilled and dedicated team. We are currently a 2 veterinarian, soon to be 3 veterinarian, small animal practice located in South West Nova. Our facility has been newly expanded and newly renovated! We currently have 3 great RVTs on our team with the ability to mentor a new grad or answer questions for a seasoned professional. We share on-call with another clinic so you would have an easy on call schedule of 1 night per week and 1 weekend in 8. Being a rural practice, and providing emergency care, allows you to excel in your career by learning exciting new skills and having variety in your work day. We have lots of tools and toys and like to stay up to date with how we practice. CE is very important to us. We recently travelled to attend an in depth dentistry CE course with two of our RVTs so we can all further our skills together. Clinic culture is also very important to us. We like to organize activities for everyone and help our community at the same time. We also make time for regular team meetings and value everyone's feedback. Competitive salary, benefits plan, RRSP matching and many other benefits available. If interested in joining our team, or for more information, feel free to e-mail Dr. Shannon Boyce at [drboyce@evangelineah.ca](mailto:drboyce@evangelineah.ca) or give us a call! New grads welcome!
