

How to have the Worlds Happiest Cat III: *What is your cat telling you?*

We've all wished our cats could talk to us. Did you know that some behaviors that may seem strange are actually their way of communicating with us? Dr. Hilden will be translating what some odd behaviors mean so that you can understand your cats subtle (and sometimes NOT so subtle) ways of telling you what they think!

- What about all that meowing, especially at night?!
- Why is my cat always rubbing his face on things?
- What does it mean when my cat suddenly pees or poops outside of the litter box?
- Why do they insist on climbing on bookshelves and counter tops?

July 28, 2015 Healthy Pet Workshops – Open to ALL pet owners
(Please leave pets at home.)

Speaker: Andrea Hilden, DVM **Time:** 5-7 p.m.

Place: Animal Care Center of Green Valley, 555 White House Canyon Rd.
