

Offer your new pet all the benefits of veterinary care during their first year.

Our puppy and kitten wellness program is designed to help get your pet started on the right path to a long and healthy life.

The first few months are a critical period in your pet's development. We can give you the support and tools necessary to help him or her grow into a well-mannered, healthy dog or cat, including information and advice on nutrition, training, behaviour, and socialization.
